

CRÉCHSKI PRAVDA

Workers celebrate children care production increase

Childcare production up 90% as part of five year plan.

Today children from across the University crèche and nursery system were given an extra helping of potato and cabbage to celebrate the successful completion of an increase in childcare production of 90%. This means that we have increased within the limits set by the five-year plan of the Dear Leader Alasdair Smith. However counter-revolutionaries seeking

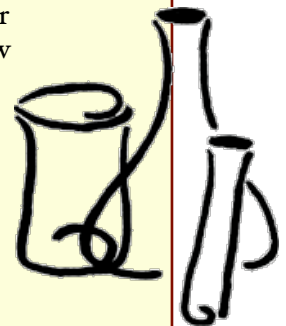

to discredit our great achievements have been found to be distributing material criticising the high cost of childcare on campus. Comrade Smith has promised to liquidate all critics of the revolution and ensure that only worker's who abide by his new strategy without comment can remain alive.

Tractor production up, children 60% happier

Comrade Smith announced today that due to the shutting of the bourgeois Chemistry Department we would be freed as workers from the shackles of Western Science and Technology.

He was quoted as saying "now we can found a new science based on rational techniques of cost-benefit analysis, customer happiness and low academic standards".

As part of the restructuring he announced the creation of a tractor research unit, 15 new bureaucratic departments and new plush vice-chancellor offices in the ex-chemistry department offices. Chemistry academics welcomed the move from their new homes in Siberia.

HAPPY CRÉCHE WORKERS PREPARE FOR CHILDREN'S MARCH AROUND CAMPUS

To celebrate the victory of the great leader Comrade Smith, the crèche is organising a great children's marching parade around the campus.

Flags have been made and all the children are busy making bunting and saving and recycling precious supplies of paper and ink to write slogans like "Down with the Chemical Oppressors!" and

"Our love to the Dear Leader!".

Comrade Smith has made it known of his great happiness at the support of the comrade toddlers and babies at the University.

HAPPIER WORKERS

**Comrade Smith with Workers**

Alasdair Smith today met with representative of the workers on the University and pledged that he would do everything in his power to ensure the crèche closing times had no relationship to ordinary working hours.

This he explained was to keep the workers on their toes and increase productivity and fitness. He was quoted as saying "if our workers can do two things in the last hour of the day, and have to run across campus to avoid the late book then we will see fitter more disciplined workers".

Angry counter-revolutionaries who pointed out that this policy was illogical and impossible for parents with children were immediately arrested and shot.

There can be no space at the University for critics of the system which has been hatched within the huge intellect of the Dear Leader.

FORTHCOMING EVENTS

We are happy to announce the following forthcoming events at the crèche and nursery.

Fag Butt Collection Day

Thanks to the helpful participation of the comrade students in Norwich House who are generous enough to throw

their used cigarette butts into the children's area we are able to announced that we have now collected 30000. These the children will be reused to make new cigarettes for the workers on the front line of the accountancy and management offices.

Lunch Cover

As we are unable to offer any reasonable lunch cover we shut over lunchtimes so that staff and students comrades can work harder. Some have suggested our reorganising our procedures to offer cover, but as Comrade Smith said "I am pleased that Crèche has supported the direction of my illogical University plans overall, and the proposals for investing in excellence".

Childcare prices rise

Parents of children in the creche were sending letters of congratulations in thanks to the Dear Leader for increasing fees across the board for the creche and nursery. There were scenes of rejoicing and happiness in the knowledge that no change will be made and the extra money will fund 15 extra accountants' jobs.

Late Book Policy

Some counter-revolutionary parents have criticised our backward late policy at the crèche calling it Soviet and Stalineque. We are grateful for their kind compliments but their requests to have it removed have been turned down.

Car Parks

Some parents have drawn attention to the new planned car park. The Dear Leader kindly looked into this issue and has agreed to move the car park closer so that students have less distance to walk to classes.

Calendar

Easter 2006

Remember that the crèche closes over Easter with no consideration of your childcare needs!

August 2006

Remember that the crèche closes over August with no consideration of your childcare needs or whether you can take time off yourself.

Autumn Term 2006

Luckily we have no procedures to ensure your teaching or studying clash with our childcare and we are loth to allow people to swap and change..

Christmas 2006

Regardless of whether you want to come you will be forced to take a half day holiday as we close for a Christmas party unilaterally...

Quick News

SUSSEX FIRST

New technologies are already pouring out of the high

tech cost-benefit accountants offices. This one was the result of 113 budget cuts and 5 axed staff and is still state of the ark.

CHEMISTRY WORK

Ex-chemistry professors and academics settling in to their new jobs in Siberia.

SMITH SHRINE

A new shrine in honour of the Dear Leader Comrade Smith has been inundated with

workers and children desperate to pay their respects.
